

Sessùn Craft Prize

Beauty is
in the journey

sessùn

sessùn

For the past 25 years, Sessùn has been engaged in creating a subtle and singular women's fashion. Playing with volumes and materials, reinventing the classics and the codes of the masculine/feminine, Sessùn writes the story of a free-spirited and inspired woman.

Ever committed to a conscious approach based on quality and the promotion of know-how, Sessùn stands out for its close attention to detail, the preservation of strong values and the development of its universe into a true art of living. The latter, embodied by the Sessùn Alma boutique, also shines through the community of artists and craftsmen with whom Sessùn continues to grow.

Sessùn is distributed in over 400 points of sale in France and abroad, through its own boutiques, corners and multi-brands.

None of our stores are alike, they are designed as an echo of the pillars of the brand: respect for local heritage, love of know-how, and tribute to all crafts. The most recent were opened in Madrid, Barcelona, Palma de Mallorca, Brussels, Frankfurt and Paris.

In 2024, Sessùn launched the 2nd edition of the Sessùn Craft Prize, an international competition open to all students and young professionals between the ages of 18 and 35. It is our way, once again, of demonstrating our commitment to artisan skills, design and know-how, as well as our desire to guide and support a new generation of designers by giving them a platform to showcase their work.

brief

Create a 'masterpiece' pendant luminaire intended to decorate and illuminate the main meeting room at Sessùn's headquarters. The generously dimensioned hanging creation will grace the largest conference room in our offices which hosts presentation collections, multi-department meetings and important corporate celebrations.

Conceived to harmonize with the warm atmosphere of the Sessùn brand and its ethos, the winning luminaire design will be selected based on technical feasibility and eco-friendliness, along with the potential for a future version of the design to appear in Sessùn stores.

The production budget for the piece will be +/-€5,000.

It would be greatly appreciated if the winning project could be produced by a local artisan or company. In addition to technical considerations, it is also essential to think about the overall cost of the object from the start of the design process.

Acting as a word map, the list of keywords below sketches, in a conceptual but nevertheless precise way, the contours of the project's territory.

This list is therefore intended to encourage designers to approach the project they submit for the competition in the freest, most creative and least formatted frame of mind possible, while ensuring they adhere to the themes covered within the brief.

* **3rd Prize** : Sessùn purchase voucher worth 500€*

**Excluding products sold at SESSUN ALMA, and excluding periods of sales and discounts*

more about

MASSILIA DESIGN

The Sessùn Craft Prize is organized in collaboration with the structure Massalia, based in Marseille.

This first edition of the Sessùn Craft Prize is organized in collaboration with the Marseille-based design workplace Massilia. Conceived by and for designers, Massilia encourages young designers to express their visions and supports them in their professional project. While waiting to physically set up and host the offices-workshops that will welcome young international designers, the structure sets up contests and collaborations with brands diversified and open to tomorrow's creation, enabling these young creators to concretely realize their projects; Sessùn, a dynamic and constantly evolving brand, is one of them.
